Intelligent key and equipment vending solutions

Who we are and what we do

Traka is the leading worldwide specialist in key, equipment and asset management solutions working with many forces to realise cashable and non-cashable savings. We manufacture automated vending solutions for keys, airwave radios and other specialist equipment and are a well recognised solutions provider to the public sector; our systems are in use in many prisons, police forces and hospitals across the UK.

Using Traka's 'silver bullet', the iFob, our intelligent solutions enable you to implement superior control with:

- Key management to secure areas such as firearms stores and other restricted areas
- Access to and the usage of equipment such as Tasers, breathalysers, incapacitant spray, specialist and covert equipment
- Managing access to vehicle keys – record and report on mileage driven and vehicle defects during the period keys were out

Intelligent asset management

Keys for secure areas and facilities

Radio handsets

Fleet and specialist vehicles

Laptops, MobileID and mobile data terminals

Intelligent asset management for police stations

Key Vending

- Controlled access to authorised keys for staff and officers
- Automatically vend keys from a secure software controlled cabinet
- Individual staff recognition ensures unique access permissions
- Segregate operational and non-ops keys
- Audit and account for every key set 24/7 365 days per year
- Automatically alert and notify should a key not be returned on time
- Integrate with your access control system to ensure staff can't leave site without first returning their keys

Radio Vending

- Many of the benefits of key vending are also applicable to radio vending
- Automatically vend radios from a secure software controlled locker
- Radios are available 24/7, to authorised staff only
- Handsets are securely stored and accounted for, when not in use
- Staff are individually accountable, resulting in fewer losses and less damage
- RFID tagging ensures every radio is uniquely identified and managed
- Integrated battery charging ensures handsets are always ready for use

Fleet Management

- Prevent unauthorised staff from driving fleet and specialist vehicles
- Always know exactly who was driving each vehicle and when
- Report on mileage, fuel, hours used and even where the vehicle is parked
- Enforce alcohol testing for drivers before their vehicle keys are released
- Vehicle defects reported by the user automatically generate alerts to the service team and can lock-out access to vehicles with faults

Asset Management

- Ideal for Tasers, data terminals, cameras and specialist equipment
- Manage, control and account for the use of shared portable equipment
- At all times know who has, or who previously used, portable pool equipment
- Deposit important paperwork, making it readily available 24/7 to selected staff
- Use our software to manage, control and report on usage, with confidence
- Automated vending from a fully audited system
